PRESIDENT'S MESSAGE:

I would first like to say Thanks for all the people who helped with the meet and all the people who came to the meet on October 21. We all had a wonderful time.

I talked to Mr. Gary Goodard of Georgia the other night (he is the past President of the Mustang Club of America) and he offered his help any way we need it. He has 4 Falcons; 2 Conv. (Sprints), and 2 Hardtops.

The club now has 34 members, from ten different states; I think this is just Great! If everyone will keep up the good work we can grow each month. This is what it takes to have a good club. The more we have, the better we can help each other.

As most of you know, our Vice-President and Secretary had to resign. Mr. Robert Satterfield has changed jobs and felt that he would not be able to make the meets with the new job. Mrs. Sharon Satterfield is now a Mother-To-Be and asked to be replaced. We wish them both well.

I would like for everyone to start thinking about the 1980 National Meet to be held next August. It will be here in Arkansas. Call or drop me a line and tell me what you want at the meet. It's your meet so let us know what you would like.

I am very happy to report that the club is now a Corporation in the State of Arkansas. The Charter membership forms and the membership cards are now being printed. So watch for your soon. The first 25 members are the Charter Members.

I would like to stress that if anyone has any questions about the club or if I can be of any help to anyone, please feel free to call or write me any time.

President,
Roy E. Sword

FALCON CLUB MEETS:

Due to the Area that The Falcon Club of America covers, it is almost impossible for everyone to make all the meets, therefore, I think that we should be thinking about Chapters to form. This will be a subject that will be looked into further before the National Meet next August.

Meanwhile, I suggest if anyone wants to set up a meet in your Area, go ahead and do so. I will put an ad in the newsletter if you will let me know about them.

Tour Chairman

32.6

The 61 Mobilgas Economy Run:

It started in Los Angeles, finished in Chicago and included 2,500 long grueling miles between. The course provided a good cross section of the roads and highways of America. Every America compact was entered. Drivers were skilled experts who misered out gas as if they were paying for it. And Falcon won this cross-country test 1-2. The No.1 Falcon posted a record-breaking 32.6...highest for any "6" or "8" in the past 25-year history of the Run. The No. 2 Falcon was close behind with 31.6 mpg. Both came from the factory as you might have ordered them with Falcon 144 Six engines and manual 3-speed transmissions. Once again the record is there for all to see--Falcon means top MPG in the USA.
